

CONTROL SYSTEMS LABORATORY

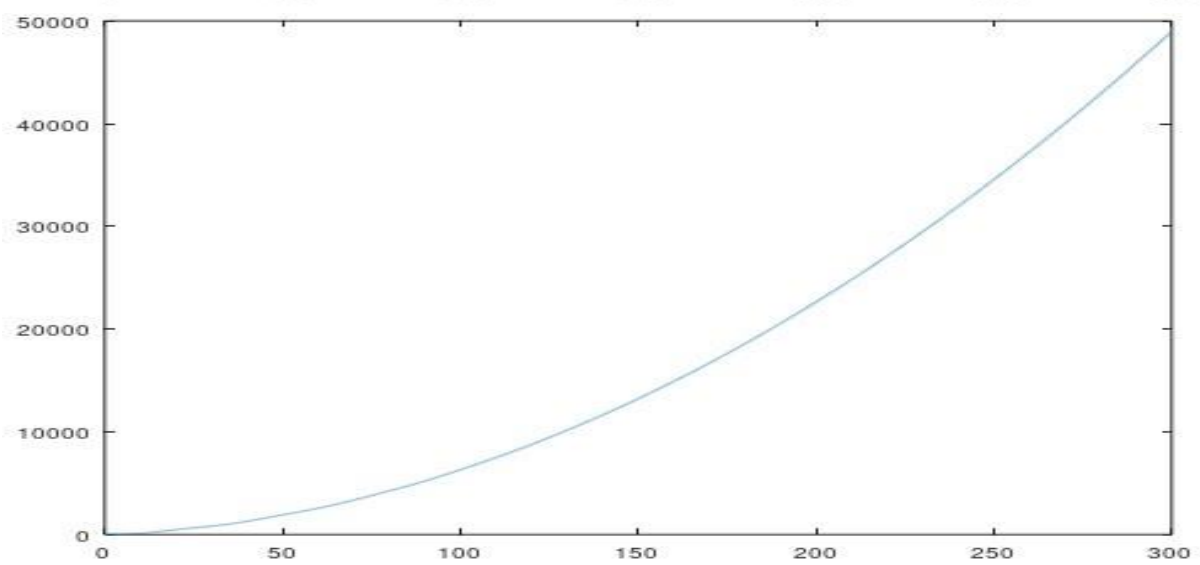

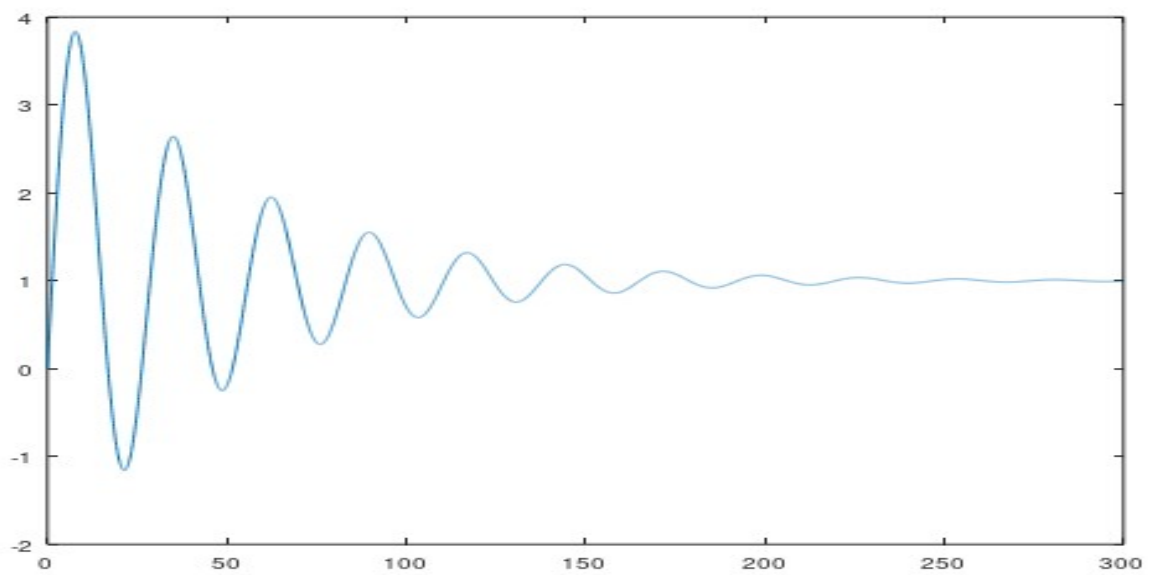

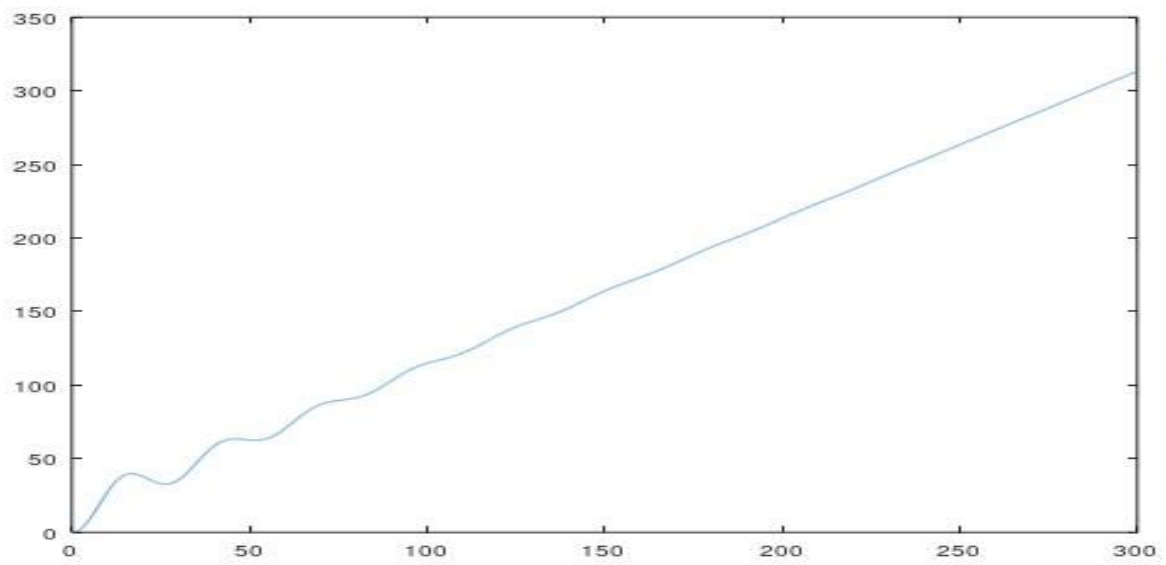

Experiment No:	2
Experiment Name:	EXPERIMENT 2
Student No:	151220192027
Student Name:	Mustafa Yağcı
Date:	07.05.2023

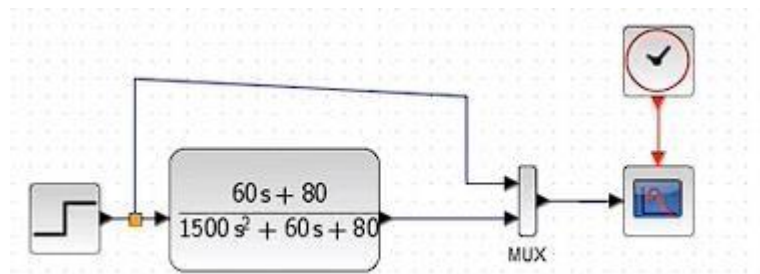

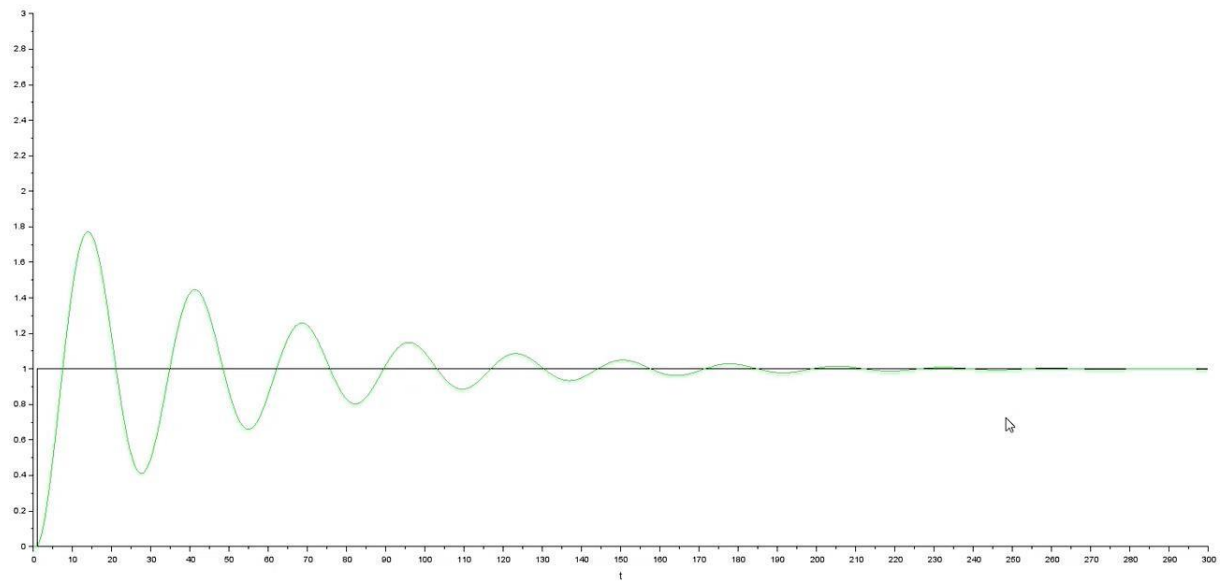

1. OBJECTIVES

1. Formulate the representation of a dynamical system by establishing a definition for a function that algebraically relates the output of systems respect to its input.
2. Obtain a Simulink model for a given dynamical system by using the Xcos blocks.

2. EXPERIMENTAL RESULTS

3. CONCLUSION & DISCUSSION

We tried to formulate a dynamic system, using a transfer function. We learned the lsim command and the step function. We created a function in the Sci-Lab application.
